

Safety data sheet

according to GB/T 16483-2008, GB/T 17519-2013

Printing date 01.03.2023

Version number 04-00

Revision: 01.03.2023

1 Identification of the substance/mixture and of the company/undertaking

Product identifier

Trade name: LUCITE® 468 Express

Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

Application of the substance / the mixture Coating agent

Uses advised against

This product is not suitable for uses other than those specified in the "Use of the substance/mixture". If your particular manner of use is not listed, please contact the creator of this safety data sheet.

Details of the supplier of the safety data sheet

Manufacturer/Supplier:

Dörken Coatings GmbH & Co. KG
Wetterstr. 58
58313 Herdecke
Germany
www.doerkencoatings.de

Phone: +49 2330 63 243

Fax: +49 2330 63 100 243

Further information obtainable from: msds.coatings@doerken.de**Emergency telephone number:** +86 532 8388 9090

2 Hazards identification

Classification of the substance or mixture

The product is not classified, according to the Globally Harmonised System (GHS).

Label elements

GHS label elements Void**Hazard pictograms** Void**Signal word** Void**Hazard statements** Void

Other hazards

Results of PBT and vPvB assessment**PBT:** Not applicable.**vPvB:** Not applicable.

3 Composition/information on ingredients

Chemical characterisation: Mixtures

Description: Mixture of substances listed below with nonhazardous additions.**Dangerous components:** Void**Additional information:** For the wording of the listed hazard phrases refer to section 16.

Safety data sheet

according to GB/T 16483-2008, GB/T 17519-2013

Printing date 01.03.2023

Version number 04-00

Revision: 01.03.2023

Trade name: LUCITE® 468 Express

(Contd. of page 1)

4 First aid measures

Description of first aid measures

General information:

In all cases of doubt, or when symptoms persist, seek medical advice.

Soiled, soaked clothes immediately take off.

Never give anything by mouth to an unconscious person.

After inhalation: Supply fresh air; consult doctor in case of complaints.

After skin contact: Wash with plenty of soap and water.

After eye contact:

Remove contact lenses. Keep eye lids open and rinse plentifully for at least 10 minutes with clean running water. Subsequently consult an ophthalmologist.

In case of troubles or persistent symptoms, consult an ophthalmologist.

After swallowing:

Rinse out mouth and then drink plenty of water.

Seek immediate medical advice.

Information for doctor:

Most important symptoms and effects, both acute and delayed No further relevant information available.

Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

5 Firefighting measures

Extinguishing media

Suitable extinguishing agents:

Extinguishing powder, foam, carbon dioxide.

Use fire extinguishing methods suitable to surrounding conditions.

For safety reasons unsuitable extinguishing agents: Water with full jet

Special hazards arising from the substance or mixture

Fire will produce dangerous decomposition products like dense, black smoke, carbon dioxide (CO₂), carbon monoxide (CO) and nitrogen oxides (NO_x). Inhalation may cause serious health damage.

Under certain fire conditions, traces of other toxic gases cannot be excluded.

Advice for firefighters

Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

Additional information

Collect contaminated fire fighting water separately. It must not enter the sewage system.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

(Contd. on page 3)

Safety data sheet

according to GB/T 16483-2008, GB/T 17519-2013

Printing date 01.03.2023

Version number 04-00

Revision: 01.03.2023

Trade name: LUCITE® 468 Express

(Contd. of page 2)

Avoid contact with skin and eyes.

Environmental precautions:

Do not allow product to reach sewage system or any water course.

Inform respective authorities in case of seepage into water course or sewage system.

Keep contaminated washing water and dispose of appropriately.

Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose of the material collected according to regulations.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

Handling:**Precautions for safe handling**

Avoid prolonged, intensive skin contact and contact with the eyes.

Avoid the handling of incompatible substances and mixtures. Incompatible substances: see section 10.5

Information about fire - and explosion protection: No special measures required.**Conditions for safe storage, including any incompatibilities****Storage:****Requirements to be met by storerooms and receptacles:**

Make sure spills can be contained, e.g. in sump pallets.

Protect from frost, heat and direct sunlight. Keep tightly closed, cool and dry.

Information about storage in one common storage facility: Store away from foodstuffs.**Further information about storage conditions:** None.**Storage class:** 12**Specific end use(s)** No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical facilities:

Ensure a good ventilation. This can be achieved by local exhaustion or general exhaust air.

Control parameters**Ingredients with limit values that require monitoring at the workplace:** No data.**Additional information:** The lists valid during the making were used as basis.**Exposure controls** Provide good ventilation and/or an exhaust system in the work area.**Personal protective equipment:****General protective and hygienic measures:**

Wash hands before breaks and at the end of work.

(Contd. on page 4)

Safety data sheet

according to GB/T 16483-2008, GB/T 17519-2013

Printing date 01.03.2023

Version number 04-00

Revision: 01.03.2023

Trade name: LUCITE® 468 Express

(Contd. of page 3)

Avoid contact with the eyes and skin.
Immediately remove all soiled and contaminated clothing
Do not eat, drink, smoke or sniff while working.
Use skin protection cream for skin protection.

Respiratory protection:

Use always breathing protection with splashing medium.
Use combination filter type A(-P2) according to EN 141.

Protection of hands:

Work with gloves. Gloves must be inspected for damage before use. Defective or damaged gloves must not be used. Gloves must satisfy the specifications of EC directive 89/686/EWG and standard EN 374.

Material of gloves

Nitrile rubber

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection: Wear protective goggles to protect against splashing.

Body protection: Impervious protective clothing

9 Physical and chemical properties**Information on basic physical and chemical properties****General Information****Appearance:**

Form:	Fluid
Colour:	White

Odour:	Low odour
---------------	-----------

Odour threshold:	For mixtures not applicable.
-------------------------	------------------------------

pH-value at 20 °C:	9.5-10.5
---------------------------	----------

Change in condition

Melting point/Freezing point:	Not security-related.
Initial boiling point and boiling range:	100 °C

Flash point:	Not applicable.
---------------------	-----------------

Flammability (solid, gas):	Not applicable.
-----------------------------------	-----------------

Ignition temperature:	Not applicable.
------------------------------	-----------------

Version number 04-00

Revision: 01.03.2023

Trade name: LUCITE® 468 Express

(Contd. of page 4)

Decomposition temperature:	For mixtures not applicable.
Auto-ignition temperature:	Product is not selfigniting.
Explosive properties:	Product does not present an explosion hazard.
Explosion limits:	
Lower:	Not determined.
Upper:	Not determined.
Oxidising properties	In its condition as supplied, the product is neither flammable nor oxidising.
Vapour pressure at 20 °C:	23 hPa
Density at 20 °C:	1.54-1.64 g/cm ³
Vapour density	Not applicable.
Evaporation rate	For mixtures not applicable.
Solubility in / Miscibility with water:	Miscible / waterdilutable.
polar solvents:	Partly miscible.
non-polar solvents:	Not miscible or difficult to mix.
Partition coefficient: n-octanol/water:	For mixtures not applicable.
Viscosity:	Not security-related.
Other information	No further relevant information available.

10 Stability and reactivity**Reactivity**

No dangerous reactions are known.

No further relevant information available.

Chemical stability Product is stable under normal storage conditions.**Possibility of hazardous reactions**

No dangerous reactions known.

No dangerous reactions are known.

Conditions to avoid No further relevant information available.**Incompatible materials:** strong oxidizing agents**Hazardous decomposition products:**

In case of fire arise: smoke and carbon oxides. Under certain fire conditions tracks of other toxic products can not be excluded.

11 Toxicological information

Information on toxicological effects

Acute toxicity

LD/LC50 values relevant for classification:

The quoted data are literature values and/or manufacturer/supplier data.

Specific symptoms in biological assay:

Skin corrosion/irritation May cause irritations.**Serious eye damage/irritation** May cause irritations.**Respiratory or skin sensitisation** No sensitising effects known.**Additional toxicological information:** Carcinogenic.

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

The product is not classified as carcinogenic, mutagenic or toxic to reproduction (CMR properties).

Aspiration hazard

The mixture contains no or only small amounts of materials which are classified as an aspiration hazard. It can therefore be assumed that the mixture is not an aspiration hazard.

12 Ecological information

Toxicity

Aquatic toxicity: There are no statements/information available of the preparation.**Persistence and degradability** No further relevant information available.

Behaviour in environmental systems:

Bioaccumulative potential No further relevant information available.**Mobility in soil** No further relevant information available.

Results of PBT and vPvB assessment

This product does not contain relevant substances that have been assessed as persistent, bioaccumulative and toxic (PBT) or as very persistent and very bioaccumulative (vPvB).

PBT: Not applicable.**vPvB:** Not applicable.**Other adverse effects** No further relevant information available.

13 Disposal considerations

Waste treatment methods

Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.
