Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 07.12.2023

Version number 01-06 (replaces version 01-05)

Revision: 07.12.2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name: CWS WERTLACK® Verdünnung 488

1.2 Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

Application of the substance / the mixture Thinner, Diluent

Uses advised against

This product is not suitable for uses other than those specified in the "Use of the substance/mixture". If your particular manner of use is not listed, please contact the creator of this safety data sheet.

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier: Dörken Coatings GmbH & Co. KG Wetterstr. 58 58313 Herdecke Germany www.doerkencoatings.de

Phone: +49 2330 63 243 Fax: +49 2330 63 100 243

Further information obtainable from: msds.coatings@doerken.de

1.4 Emergency telephone number:

Emergency CONTACT (24-Hour-Number): GBK GmbH +49 (0)6132-84463

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

GHS02 flame

Flam. Liq. 3 H226 Flammable liquid and vapour.

STOT SE 3

H336 May cause drowsiness or dizziness.

Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects.

2.2 Label elements Labelling according to Regulation (EC) No 1272/2008

The product is classified and labelled according to the CLP regulation.

(Contd. on page 2)

- DE/EN

according to 1907/2006/EC, Article 31

Printing date 07.12.2023

Revision: 07.12.2023

Trade name: CWS WERTLACK® Verdünnung 488

Hazard pictograms GHS02 GHS07 Signal word Warning Hazard-determining components of labelling: n-Butyl acetate 2-Methoxy-1-methylethyl acetate Hydrocarbons, C9, aromatics Hazard statements H226 Flammable liquid and vapour. H336 May cause drowsiness or dizziness. H412 Harmful to aquatic life with long lasting effects. **Precautionary statements** P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing vapours. P271 Use only outdoors or in a well-ventilated area. P273 Avoid release to the environment. P280 Wear protective gloves / eye protection. Call a doctor if you feel unwell. P312 P403+P233 Store in a well-ventilated place. Keep container tightly closed. P501 Dispose of contents/container in accordance with local/regional/national/international regulations. Additional information: EUH066 Repeated exposure may cause skin dryness or cracking. 2.3 Other hazards Vapours of the product are heavier than air and may accumulate below ground level, in pits, channels and basements in higher concentration. In case of inhalation: Higher doses may lead to a narcotic effect. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Dangerous components:		
CAS: 123-86-4 EINECS: 204-658-1 Reg.nr.: 01-2119485493-29-xxxx	n-Butyl acetate Flam. Liq. 3, H226; STOT SE 3, H336, EUH066	25-50%
CAS: 108-65-6 EINECS: 203-603-9 Reg.nr.: 01-2119475791-29-xxxx	2-Methoxy-1-methylethyl acetate Flam. Liq. 3, H226; STOT SE 3, H336	20-30%

Additional information:

All hydrocarbons used comply with note P (less than 0.1% benzene) of the CLP regulation. For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General information:

In all cases of doubt, or when symptoms persist, seek medical advice.

Soiled, soaked clothes immediately take off.

Never give anything by mouth to an unconscious person.

After inhalation:

Supply fresh air; consult doctor in case of complaints.

In case of unconsciousness place patient stably in side position for transportation.

After skin contact: Wash with plenty of soap and water.

After eye contact:

Remove contact lenses. Keep eye lids open and rinse plentifully for at least 10 minutes with clean running water. Subsequently consult an ophthalmologist.

In case of troubles or persistent symptoms, consult an opthalmologist.

After swallowing:

Rinse out mouth and then drink plenty of water. Seek immediate medical advice.

4.2 Most important symptoms and effects, both acute and delayed

Prolonged/repetitive skin contact may cause skin defattening or dermatitis. Headache, dizziness, numbness, sickness/nausea, tiredness, stunning effect, dry skin, allergic reactions.

4.3 Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing agents:

Extinguishing powder, foam, carbon dioxide. Use fire extinguishing methods suitable to surrounding conditions.

(Contd. on page 4)

according to 1907/2006/EC, Article 31

Printing date 07.12.2023

Version number 01-06 (replaces version 01-05)

Revision: 07.12.2023

(Contd. of page 3)

Trade name: CWS WERTLACK® Verdünnung 488

For safety reasons unsuitable extinguishing agents: Water with full jet

5.2 Special hazards arising from the substance or mixture

Flammable liquid and vapour.

Can form explosive gas-air mixtures.

The vapour of the product is heavier than air and may accumulate below ground level, in pits, channels and basements in higher concentration.

Fire will produce dangerous decomposition products like dense, black smoke, carbon dioxide (CO₂), carbon monoxide (CO) and nitrogen oxides (NOx). Inhalation may cause serious health damage. Under certain fire conditions, traces of other toxic gases cannot be excluded.

5.3 Advice for firefighters

Protective equipment:

Wear self-contained respiratory protective device. Wear fully protective suit.

Additional information

Collect contaminated fire fighting water separately. It must not enter the sewage system.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away. Keep away from ignition sources and ensure a well-ventilated room. Do not inhale fumes. Avoid contact with skin and eyes.

6.2 Environmental precautions:

Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system.

6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of the material collected according to regulations.

6.4 Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid the formation of ignitible and explosion- hazardous solution vapours.

Ensure good ventilation/exhaustion at the workplace.

Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air).

Material can become charged elektrostatically. Anti-static clothing including shoes are recommended.

Avoid contact with skin and eyes as well as inhalation of vapours.

Avoid the handling of incompatible substances and mixtures. Incompatible substances: see section 10.5

Eye/face protection

Wear protective goggles to protect against splashing. Have eye wash bottle or eye rinse ready at work place. Professional Cooperative Rules - BGR 192 Use of eye and face protection

Body protection: Solvent resistant protective clothing

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical	properties
General Information	
Physical state	Fluid
Colour:	Colourless
Odour:	Very Esther-like
Odour threshold:	For mixtures not applicable.
Melting point/Freezing point:	Not security-related.
Boiling point or initial boiling point and boiling	
range	120 °C (DIN 51751)
Flammability	Flammable.
Lower and upper explosion limit	
Lower:	1.2 Vol %
Upper:	10.8 Vol %
Flash point:	>23 °C (DIN 51755)
Auto-ignition temperature:	280 °C (ASTME E-659)
Decomposition temperature:	For mixtures not applicable.
pH	Mixture is non-soluble (in water).
Viscosity:	> 20,5 mm²/s (40°C)
Solubility	
water:	Not miscible or difficult to mix.
polar solvents:	Not miscible or difficult to mix.
non-polar solvents:	Fully miscible.
Partition coefficient n-octanol/water (log value)	For mixtures not applicable.
Vapour pressure at 20 °C:	10.7 hPa
Density and/or relative density	
Density at 20 °C:	0.91 g/cm ³
Vapour density	Not applicable.
9.2 Other information	
Appearance:	
Form:	Fluid
Important information on protection of health an	
environment, and on safety.	
Ignition temperature:	Product is not selfigniting.
Explosive properties:	0 0
Explosive properties.	Product is not explosive. However, formation of explosive air/vapour mixtures are possible.
	(Contd. on page 8)

SECTION 10: Stability and reactivity

10.1 Reactivity Vapours can form explosive mixtures with air.

10.2 Chemical stability Product is stable under normal storage conditions.

10.3 Possibility of hazardous reactions

No dangerous reactions known.

No dangerous reactions are known.

10.4 Conditions to avoid Keep away from heat sources, sparks and open flames.

10.5 Incompatible materials: strong oxidizing agents

10.6 Hazardous decomposition products:

In case of fire arise: smoke and carbon oxides. Under certain fire conditions tracks of other toxic products can not be excluded.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 Acute toxicity Based on available data, the classification criteria are not met.

(Contd. on page 9)

- DE/EN -

according to 1907/2006/EC, Article 31

Printing date 07.12.2023

Version number 01-06 (replaces version 01-05)

Revision: 07.12.2023

(Contd. of page 8)

Trade name: CWS WERTLACK® Verdünnung 488

LD/LC50 values relevant for classification:

The quoted data are literature values and/or manufacturer/supplier data.

108-65-62	-	-1-methylethyl acetate
Oral	LD₅₀	>5,000 mg/kg (rat)
	LD₅₀	>5,000 mg/kg (rat) >5,000 mg/kg (rabbit)
Inhalative	LC₅₀ / 4 h	>20 mg/l (rat)

112-07-2 2-butoxyethyl acetate

Oral	LD_{50}	2,400 mg/kg (rat)
Dermal	LD₅₀	1,580 mg/kg (rabbit)
Inhalative	LC₅₀ / 4 h	11 mg/l (ATE)

Skin corrosion/irritation

Based on available data, the classification criteria are not met. Repeated exposure may cause skin dryness or cracking.

Serious eye damage/irritation

Splashes of solvent may cause irritation to the eye and reversible damage. Based on available data, the classification criteria are not met.

Respiratory or skin sensitisation Based on available data, the classification criteria are not met. Germ cell mutagenicity Based on available data, the classification criteria are not met. Carcinogenicity Based on available data, the classification criteria are not met. Reproductive toxicity Based on available data, the classification criteria are not met.

STOT-single exposure May cause drowsiness or dizziness.

STOT-repeated exposure Based on available data, the classification criteria are not met.

Aspiration hazard

Due to the viscosity (see section 9), classification as an aspiration hazard is omitted. Based on available data, the classification criteria are not met.

General notes:

Inhalation of solvent concentrations in excess of the OEL or MAK limit values can lead to health damage such as irritation of the mucous membranes and respiratory tract, damage to the kidneys and liver, and impairment of the central nervous system. Symptoms: headaches, dizziness, fatigue, muscle weakness, narcotic effect and, in exceptional cases, loss of consciousness. Prolonged or repeated contact with the product impairs the skin's natural lipid replenishment and causes the skin to dry out. The product can enter the body through the skin. Splashes of solvent may cause irritation to the eye and reversible damage.

Additional toxicological information:

CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)

The product is not classified as carcinogenic, mutagenic or toxic to reproduction (CMR properties). **11.2 Information on other hazards**

Endocrine disrupting properties

None of the ingredients is listed.

SECTION 12: Ecological information

Harmful to aquatic life with long lasting effects. 123-86-4 n-Butyl acetate EC₅₀ / 48 h 44 mg/l (Daphnia magna (big water flea)) EC₅₀ / 72 h 647.7 mg/l (Pseudokirchneriella subcapitata) LC₅₀ / 96 h 18 mg/l (Pimephales promelas (fathead minnow)) 108-65-6 2-Methoxy-1-methylethyl acetate EC₅₀ / 48 h 373 mg/l (Daphnia magna (big water flea)) (OECD 202) EC₅₀ / 72 h >1,000 mg/l (Selenastrum capricornutum) (OECD 201) LC₅₀ / 96 h >100 mg/l (Oncorhynchus mykiss (rainbow trout)) (OECD 203) Hydrocarbons, C9, aromatics EC₅₀ / 48 h 3.2 mg/l (Daphnia magna (big water flea)) LC₅₀ / 96 h 9.2 mg/l (Oncorhynchus mykiss (rainbow trout)) 12.2 Persistence and degradability 123-86-4 n-Butyl acetate

OECD 301D Closed-Bottle Test	83 % (28d) (O2 consumption) readily biodegradable
Hydrocarbons, C9, aromatics	
OECD 301F Manometric Respirometry Test	78 % /O₂ consump (28d) readily biodegradable

12.3 Bioaccumulative potential

123-86-4 n-Butyl acetate

OECD 117 Log Kow (HPLC method) 2.3 (n-octanol/water) (25 °C; pH 7)

12.4 Mobility in soil No further relevant information available.

12.5 Results of PBT and vPvB assessment

This product does not contain relevant substances that have been assessed as persistent, bioaccumulative and toxic (PBT) or as very persistent and very bioaccumulative (vPvB).

PBT: Not applicable. vPvB: Not applicable.

12.6 Endocrine disrupting properties

The product does not contain substances with endocrine disrupting properties.

12.7 Other adverse effects Other information:

General notes: Do not allow product to reach ground water, water course or sewage system.

DE/EN

Regulation (EC) No 111/2005 laying down rules for the monitoring of trade between the Community and third countries in drug precursors

None of the ingredients is listed.

National regulations:

Information about limitation of use:

Observe employment restrictions concerning young persons.

Observe employment restrictions for expectant or nursing mothers.

Waterhazard class: Water hazard class 2 (Self-assessment): hazardous for water.

Labelling according to Regulation (EC) No 2004/42 Not applicable.

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

The given conditions of work of the user extract themselves from our knowledge and control. The product/the preparation may be used without written permission for no other use, than the mentioned intended purpose. The user is responsible for the observance of all necessary legal instructions.

This Safety Data Sheet replaces all previous versions. With the newest version in each case, the preceding Safety Data Sheets are set out of strength.

For further information please consult the "Technical Data Sheet". Misuse may cause damage to health and environment.

Labelling according to regulation (EC) No 528/2012 **Relevant phrases**

- Flammable liquid and vapour. H226
- H304
- May be fatal if swallowed and enters airways.
- Harmful in contact with skin. H312
- H319 Causes serious eye irritation.
- Harmful if inhaled. H332
- H335 May cause respiratory irritation.
- H336 May cause drowsiness or dizziness.
- Toxic to aquatic life with long lasting effects. H411
- EUH066 Repeated exposure may cause skin dryness or cracking.

Classification according to Regulation (EC) No 1272/2008

Flammable liquids	On basis of test data
Specific target organ toxicity (single exposure) Hazardous to the aquatic environment - long-term (chronic) aquatic hazard	The classification of the mixture is generally based on the calculation method using substance data according to Regulation (EC) No 1272/2008.
Date of previous version: 04.12.2023 Version number of previous version: 01-05 Abbreviations and acronyms: Flam. Liq. 3: Flammable liquids – Category 3 Acute Tox. 4: Acute toxicity – Category 4
